close friends, and a new love, until the terror begins anew. Joey is assumed dead when a fire is set to their house and a body of a small boy is found inside. The death of her son nearly puts her over the edge and she must search her within herself in order to go on.

However, Zane kidnaps Joey, and after several months of imprisonment, Joey escapes and searches for his mother. The long road home reunites the two. Yet Zane's reign of terror is not over. Desperate to find peace of mind and put a stop to the violence always lurking in the shadows, Julie knows the only recourse is the only one she has left—his death by her hand.
